The 46th Liege colloquium on Ocean dynamics

Low oxygen environments in marine, estuarine and fresh waters

WELCOME!

Marilaure Grégoire & Alberto Borges & Arthur Capet

May 5th-9th 2014, Liege University
The Liege colloquium a long tradition initiated 46 years ago by J. Nihoul...

Subjects:
The 46th edition...

Low oxygen environments in marine, estuarine and fresh waters
All the authors of an oral or poster presentation can submit a contribution to a special issue of Biogeosciences:

**Important deadlines:**
- **June 30th:** title + authors
- **September 30th:** manuscript submission

Instructions will be sent by email to all the potential contributors.
The program is dense, so please stick to the 20’ time slot for each talk (16-17’ Talk + 3’ for questions).
Please provide your presentation to the assistants prior to the session.
